#### **Report on “Educational Tour to Vagamon”**

The Department of Computer Science organized a **one-day educational tour** to Vagamon on **13.02.26 (Friday)** as part of experiential learning and recreational activity. The tour included **49 students** accompanied by **two faculty** Dr.M.Guhapriya, Head Department of Computer Science and Mrs.K.T.Kasthoori Priya, Assistant Professor Of Computer Science. The visit provided students with an opportunity to explore nature, develop teamwork, and gain relaxation beyond classroom learning. The tour began with a visit to the scenic Vagamon Pine Forest, known for its tall pine trees and pleasant atmosphere. Students explored the natural surroundings and enjoyed the calm environment.

The group then visited the beautiful Vagamon Meadows, which offered vast green landscapes and refreshing views. The peaceful setting helped students relax and appreciate the beauty of nature. Next, the team visited Thangalpara, a place of cultural and spiritual importance. Students observed the panoramic views and learned about its significance. A major highlight of the tour was the adventurous jeep ride to Suicide Point, which offered breathtaking views of valleys and hills. The thrilling ride created excitement and enthusiasm among the students. The group also visited nearby waterfalls, where they enjoyed the natural scenery and cool surroundings. Additionally, students explored a tunnel, which provided a unique and interesting experience. The tour concluded with a lively campfire session featuring cultural activities and interactive programs. This helped strengthen the bond between students and faculty members.

Overall, the one-day educational tour to Vagamon was informative, enjoyable, and memorable. It provided students with exposure to nature, opportunities for social interaction, and a refreshing learning experience, making the tour a successful initiative of the Department of Computer Science.
