DEPARTMENT OF COMPUTER SCIENCE

CO-TECH FEAST ASSOCIATION

Report - Workshop on “BREAK • DEFEND • SECURE: AWS CYBER SECURITY”

Objectives:

- To provide students with a fundamental understanding of AWS Cloud and Cyber Security concepts.
- To create awareness about cyber threats, vulnerabilities, and digital security practices.
- To enhance students' knowledge of breaking, defending, and securing digital systems.
- To introduce students to the importance of cloud security and data protection in today's digital environment.
- To develop awareness of the latest trends and career opportunities in Cyber Security and Cloud Computing.
- To encourage students to strengthen their technical, analytical, and problem-solving skills for a secure digital future.

Report:

The Department of Computer Science under its association COTECH FEAST had organized a One Day Workshop on “**Break • Defend • Secure: AWS Cyber Security**” on 21.08.2026, Friday from 10.00 AM onwards.

The workshop was organized with the objective of providing students with practical knowledge and awareness of Cyber Security concepts, cloud security, cyber threats, and protective measures using Amazon Web Services (AWS). The programme aimed to enhance the students understanding the growing importance of cyber security in the digital world and the career opportunities available in this field.

Mrs. D.Christy Prasanna, Assistant Professor of Computer Science welcomed the gathering. She highlighted the significance of the programme and encouraged the participants to make the most of the learning opportunity.

Following the welcome address, Dr. M. Guhapriya, Head of the Department, introduced the resource person and provided an overview of the workshop. She briefly highlighted the objectives and importance of the session and motivated the participants to actively engage in the activities and discussions.

Session I was conducted by **Mr. Seenivasan V**, CEO of Silence Career Craft. The session focused on cyber security awareness, current challenges in the digital environment, and the importance of developing technical skills to protect systems and data from cyber threats.

Session II was handled by **Mr. Jithin Kanan**, Team Lead at American Express GBT and CEO of SKILLECT. He shared his knowledge and experience on cyber security concepts, the importance of securing digital systems, and the skills required to build a successful career in the technology sector.

The sessions were highly informative and interactive. The resource persons explained various concepts in a simple and practical manner, enabling students to gain a better understanding of the role of AWS and cyber security in today's technology-driven world. The workshop also motivated students to explore emerging technologies and strengthen their technical competencies.

The workshop concluded successfully with positive feedback from the participants. It provided valuable exposure to the students and encouraged them to develop the knowledge and skills necessary to face the challenges and opportunities in the field of Cloud Computing and Cyber Security.

Outcome:

The workshop on “**Break • Defend • Secure: AWS Cyber Security**” provided participants with valuable knowledge about the fundamentals of cyber security and the importance of securing digital systems and cloud environments. The sessions helped students understand various cyber threats, security practices, and the role of AWS in building secure cloud-based solutions. Participants also gained awareness of career opportunities and essential skills required in the field of cyber security. Overall, the workshop enhanced the students' technical knowledge, practical understanding, and interest in pursuing careers in cloud computing and cyber security.
