DEPARTMENT OF COMPUTER SCIENCE

Date: 14.08.2026

CO - TECH FEAST ASSOCIATION

Report –A Seminar On “From Campus To Cloud: Building A Career In

Cloud Computing & Cyber Security”

Objective:

- To create awareness among students about the growing importance of Cloud Computing and Cyber Security.
- To provide insights into various career opportunities available in these emerging technology fields.
- To help students understand the skills, knowledge, and industry requirements needed for a successful career.
- To expose students to the latest trends and developments in the IT industry.
- To motivate students to enhance their technical and professional skills and prepare for future career opportunities.

Report:

The Department of Computer Science organized a **One-Day Seminar** on “**From Campus to Cloud: Building a Career in Cloud Computing & Cyber Security**” on 14.08.2026 (Friday) at 10.00 AM in the New Auditorium. The Programme commenced with a welcome Address delivered by Mrs.D.Christy Prasanna, Assistant Professor of Computer Science. She welcomed the gathering and highlighted the importance of organizing such seminars to enhance students' knowledge and create awareness about emerging technologies and career opportunities.

Session I

The first session was handled by **Mr.Jithin Kannan**, Team Lead at American Express, GBT and CEO of KILLECT. He shared valuable insights on the various career opportunities available in the fields of **Cloud Computing and Cyber Security**. He also explained the importance of developing technical skills,

industry knowledge, and practical experience to build a successful career in the rapidly growing IT sector. The session was highly informative and motivating for the students.

Session II

The second session was handled by **Mr.V.Seenivasan**, CEO of Silence Circle. He discussed the importance of **Cyber Security**, cyber awareness, and safe practices in the digital world. He also highlighted the emerging challenges and opportunities in the field and encouraged students to continuously update their knowledge and skills to meet industry requirements. The session provided useful insights into the importance of cyber protection in today's technology-driven society. Both sessions were interactive and beneficial to the students. The seminar helped them gain a better understanding of the transition from academic learning to professional careers and created awareness about the wide range of opportunities available in **Cloud Computing and Cyber Security**.

The programme concluded with the Vote of thanks proposed by Mrs. K. T. Kasthoori Priya, Assistant Professor of Computer Science. The **One-Day Seminar** was a great success and provided a valuable learning experience for the students. It enhanced their knowledge, inspired them to develop relevant technical skills, and encouraged them to explore promising career opportunities in the fields of **Cloud Computing and Cyber Security**.

Outcome of the Programme:

The seminar helped students gain a clear understanding of the various **career opportunities in Cloud Computing and Cyber Security**. Students became aware of the technical and professional skills required by the IT industry and were motivated to upgrade their knowledge through continuous learning and skill development. The programme also encouraged students to explore emerging technologies and prepare themselves for future career opportunities in the technology sector.
